

COITM

REDEFINING POSSIBILITIES

“All Great Things *Start Small*”

Chemicals of India was incepted in 1984 & started producing Emulsions for Textiles and Homecare.

With the growing opportunity, our customer base increased to non-woven fabric industry which lead us to venture in manufacturing of Specialty Chemicals in 1990.

Over the years, we gain a reputation in market based
on our Innovation & Quality.

We have been developing new technologies for various markets, increasing our product lines

&

A HAPPY CUSTOMER BASE.

WHO WE ARE

We are Specialty Chemical Manufacturing company in India, with over **30 years of experience in development & manufacturing of Specialty Chemicals & Engineered Polymers** for various applications. We have been creating value by providing intelligent solutions customised to our customer's needs.

Putty Polymer

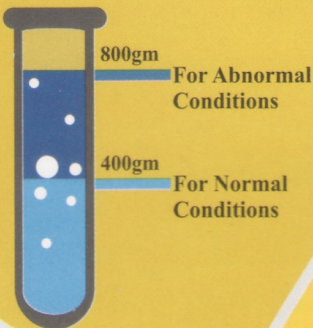

Lack of Open Spaces, Cross Ventilation & Construction Material, Dampness and Efflorescence do knock everybody's home. Putty being hard & brittle couldn't sync with expansion & contraction due to temperature changes & hence burst out.

COI Putty Polymer

would increase the strength and provides flexibility to

Wall Putty, and works as an excellent and cost effective waterproofing, that holds for a longer time, enough for the scheduled painting again

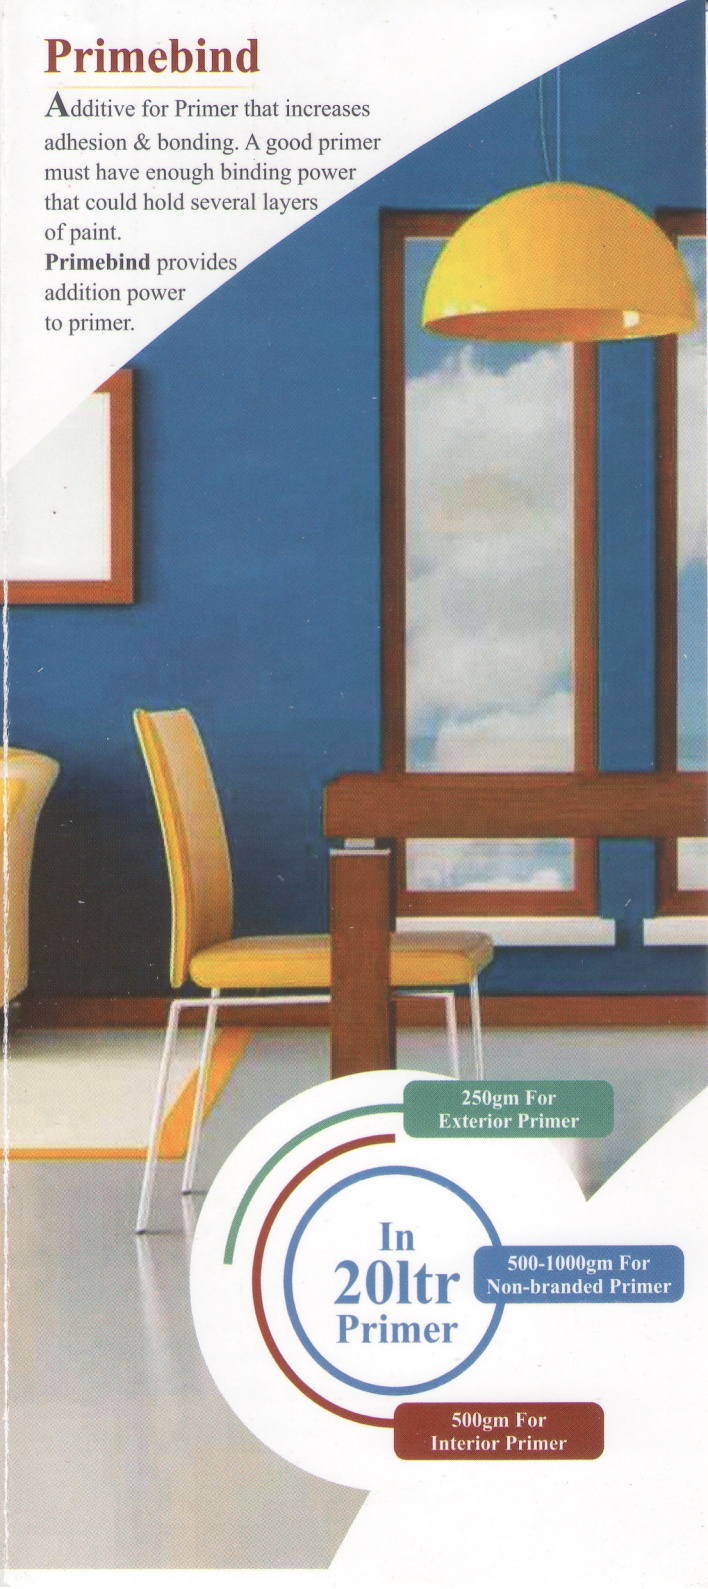

In 20kg of Wall Putty

Primebind

Additive for Primer that increases adhesion & bonding. A good primer must have enough binding power that could hold several layers of paint.

Primebind provides addition power to primer.

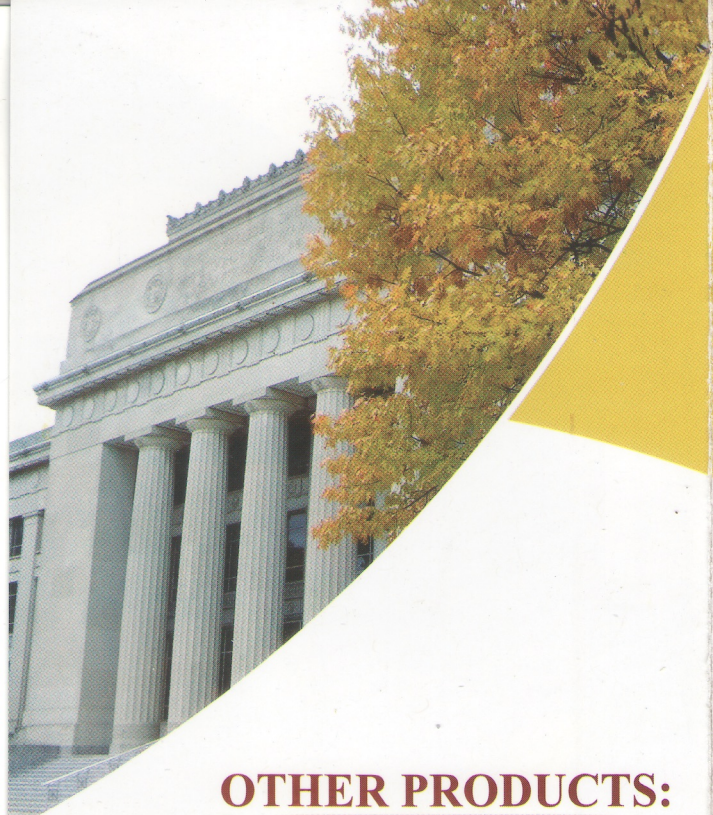

250gm For
Exterior Primer

In
20ltr
Primer

500-1000gm For
Non-branded Primer

500gm For
Interior Primer
